

REMUS®
PERFORMANCE SPORT EXHAUSTS

REMUS X FIM ENDURANCE WORLD CHAMPIONSHIP

Since over three decades, high quality sport exhaust systems are produced and manufactured at REMUS. Furthermore, the REMUS group produces OE components and complete OE exhaust systems for numerous well known manufactures.

The REMUS Research and Development centre offers extensive possibilities in the development of exhaust systems. Beside the mechanical and thermal design and optimization, the creation of the well-known REMUS sound is one of the most important development targets.

Numerous activities in racing, including the commitment as an official partner of the FIM Endurance World Championship for the next three seasons and as a partner of the F.C.C. TSR Honda France team, where REMUS tests its products in races, serve product development and technology transfer from the race track to the road.

The combination of high quality raw materials, modern machining and special process technologies together with highly qualified employees results in first class products of perfect shape and fitting accuracy.

FULL TITANIUM

3D METAL PRINT
HEAD PIPES

ULTRA LIGHT WEIGHT

4,23 KG

GAS FLOW & BACK PRESSURE
OPTIMIZED

REMUS MESH

with EC approval or racing

Cylindrical shape

Dimensions: Ø 85 mm

Sleeve material: stainless steel

Inlet cap: stainless steel

End cap: stainless steel

Weight: from 1.20 kg

Husqvarna Svartpilen 125
REMUS MESH, stainless steel

REMUS DOUBLE MESH

with EC approval or racing

Cylindrical shape

Dimensions: 2 x Ø 85 mm

Sleeve material: stainless steel

Inlet cap: stainless steel

End cap: stainless steel

Weight: from 2.50 kg

BMW R nineT
REMUS DOUBLE MESH, stainless steel

REMUS NXT

with EC approval or racing

Convex shape

Dimensions: L x W x H = 337/437 x 102 x 134 mm

Sleeve material: stainless steel matt, stainless steel black

Outlet unit: stainless steel

Weight: 2.31/2.87 kg

KTM 1290 Super Duke R
REMUS NXT, stainless steel

Ducati Monster 1200
REMUS NXT, stainless steel black

BMW S 1000 RR
REMUS NXT, stainless steel

REMUS 8

with EC approval or racing

Octagonal shape

Dimensions: L x W x H = 485 x 110 x 180 mm

Sleeve materials: stainless steel matt, stainless steel black

Inlet cap: stainless steel

End cap: carbon

Weight: from 3,20 kg

BMW R 1250 GS
REMUS 8, stainless steel black

REMUS HYPERCONE

with EC approval or racing

Conical shape

Dimensions: ~ Ø 120 mm / ~ Ø 75 mm

Sleeve length: 250 - 400 mm (depending on vehicle)

Sleeve materials: stainless steel, stainless steel black, titanium

Inlet cap: stainless steel

End cap: carbon

Weight: from 1.28 kg

Honda CB 1000
REMUS Hypercone, stainless steel black

REMUS HEXACONE

with EC approval or racing

Hexagonal shape

Dimensions: W x H ~ 105 x 137 mm

Sleeve length: 250 - 420 mm (depending on vehicle)

Sleeve materials: stainless steel, stainless steel black, titanium

Inlet cap: carbon

End cap: carbon

Weight: from 1.54 kg

KTM 1290 Super Adventure S
REMUS Hexacone, titanium

REMUS OKAMI

with EC approval or racing

Hexagonal shape

Dimensions: W x H ~ 105 x 137 mm

Sleeve length: 250 - 420 mm (depending on vehicle)

Sleeve materials: stainless steel, stainless steel black, titanium

Inlet cap: stainless steel

End cap: plastic

Weight: from 1.54 kg

Honda CRF 1000L AFRICA TWIN
ADVENTURE SPORTS
REMUS Okami, stainless steel black

REMUS BLACK HAWK

with EC approval or racing

Hexagonal shape

Dimensions: W x H ~ 105 x 137 mm

Sleeve length: 350 - 420 mm (depending on vehicle)

Sleeve materials: stainless steel black, matt stainless steel

Inlet cap: stainless steel

End cap: carbon

Weight: from 1.96 kg

Yamaha Ténéré 700
REMUS Black Hawk, stainless steel black

REMUS CLASSIC SPORT

with EC approval

Conical shape

Dimensions: Ø 120 mm / Ø 75 mm

Sleeve materials: matt stainless steel, stainless steel black

Inlet cap: matt stainless steel

End cap: stainless steel black-chrome

Weight: from 1.40 kg

Kawasaki Z 900 R5
REMUS Classic Sport, stainless steel
